

Benefits of Oro® 2.0

“It was very beneficial to have the [Center’s] staff facilitate. They’re an external, non-judgmental party who can bring their facilitation skills ... that helped bring out everybody’s opinion and also helped drive consensus, sometimes when it wasn’t so easy to drive consensus. Their skills were exceptional... Oro 2.0 set the stage for us to begin a high reliability journey.”

- Dr. Michelle B. Schreiber, M.D., Senior Vice President and Chief Quality Officer, Henry Ford Health System
